

Figure 37

*Parvicapsula* sp. trophozoites and spores in fingerling coho salmon kidney tissue section. Note the trophozoites and spores in the tubular epithelium (black arrows) and the lumen (white arrows).

H&E stain. X400.

Figure 38

*Parvicapsula* sp. trophozoites and spores in kidney tubules of a fingerling coho salmon with an extensive infection (arrows). Note numerous very small paired basophilic polar capsules in the tubular epithelia and the lumens.

M-G G stain. X600.

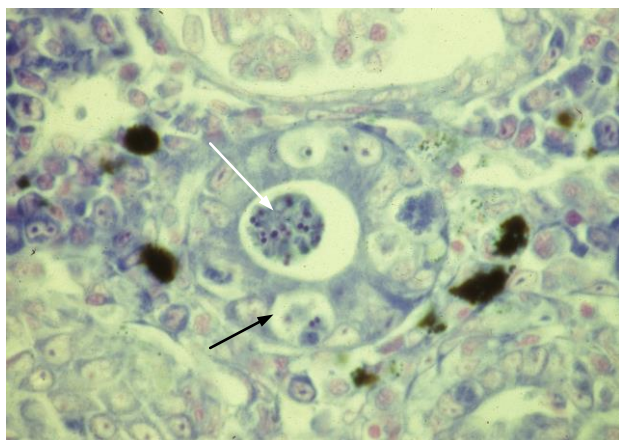

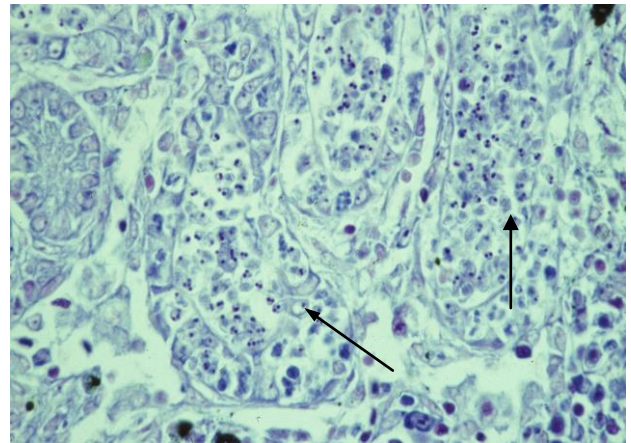

Figure 39

*Parvicapsula* sp. trophozoites and spores in kidney tubule of a fingerling coho salmon. Note small basophilic polar capsules in the tubular epithelium (white arrow) and the lumen (black arrow).

M-G G stain. X830.
